Sri Saraswati Vidhya Mandir		**Ongole, Andhra Pradesh**
Secondary School Of Certificate	**- 6.8 CGPA**	2014

Technical Skills

Web Technologies	:	HTML5, CSS3
Scripting Languages	:	JavaScript
Libraries	:	React Js, Node Js
Databases	:	Mongo db
Tools	:	Visual Studio Code
Others	:	Github, CSS Flexbox, Cloudfare

Projects

 Title: Real Estate Website

Link: website: https://real-estate-website-67s.pages.dev/

Technologies: React.js, JavaScript, HTML5, CSS3

Dependencies: react-countup, react-accessible-accordion, react-icons, swiper-js

I developed a highly immersive real estate website using React.js, JavaScript, HTML5, and CSS3. With a mobile-friendly layout, the website ensures seamless browsing across devices. CSS3 properties like flex and background were utilized to enhance the visual appeal.

To optimize functionality and user experience, I integrated key dependencies: react-countup for smooth number animations, react-accessible-accordion for interactive property details, react-icons for visually appealing icons, and swiper-js for seamless navigation through property listings.

This dynamic website offers users an enjoyable browsing experience, allowing them to explore properties effortlessly. By leveraging the power of React.js, JavaScript, HTML5, CSS3, and the mentioned dependencies, the real estate website provides an immersive platform for users to discover their ideal properties.
